INTRODUCTION OF MEWAT AREA

Adjoining to India's capital New Delhi, a specific area of the states of Haryana and Rajasthan is called as 'Mewat'. The area of Mewat comprises 92 per cent Muslim majority population, which is geographically situated just at the distance of 70 kms southwest of the national capital, New Delhi. The area of Mewat comprises two districts, Alwar and Bharatpur of the state of Rajasthan, while Nuh and Faridabad districts of Haryana.

HISTORY & OVERVIEW

The Muslims of Mewat have a bright history. In the first battle of freedom fought in India against the British government in 1857, more than ten thousand warriors of this community had sacrificed their lives with pleasure while fighting for the sake of India's freedom.

At the time of India's partition in 1947 when the Father of the Nation Mahatma Gandhi himself came to Mewat to stop the Muslims of Mewat area from proceeding on migration and addressed them, "Mew are the backbone of India and no power in the world can separate them from India." After this encouragement, extended by Mahatma Gandhi, the stream of Muslims' migration from Mewat area to Pakistan was stopped.

Prior to this, while addressing a huge rally held in Champaran district of Bihar state on 14th September 1946, Mahatma Gandhi said, "If the rest of the Indian communities had the spirit like that of the Mewaties, I can get the country liberated within 24 hours."

The courage and bravery, hospitality, and brotherhood of Mewati Muslims are famous across the subcontinent. A great extent of Mewat's moral and religious values and common civilization resemble with those of the desert of Arabia. Desert, the herds of the camels and goats, and acacia trees are identification marks of this region. The way of living, simplicity in lifestyle, humility in accent, and cordiality are found in plethora among the people of this area. The area of Mewat has a distinct global recognition by virtue of its individual civilization and etiquette, and of religious and invitational attributes.

As education plays an important role in the development of any region or nation, therefore, Mewat district is one of the backward districts not only in state but in country level also. According to Census of India, 2011, the average literacy rate of district is 54.10% whereas it was only 43.30% during 2001. The literacy rate among male population was 61% during 2001 has reached 69.9% in 2011. The literacy rate of Mewat is only 53.2 per cent. There is low literacy among Muslims (52.75 per cent) as compared to their Hindu counterparts (56.14 per cent). The highest number of people lives in Firozpur (Jhirka) while here literacy rate is poor (51.59%) due to lack of public awareness and educational institute. Figures for Mewat and the rest of districts emerge to be comparable with at least one primary school per village.

We aim to provide Minorities, high quality education and create an atmosphere of mutual respect and adaptability that supports our students to grow into purposeful young adults so they are able to contribute to society in a positive way.

MEWAT RISING SCHOOL FOR BOYS role is to help each student come into confident possession of his innate talents, improve the skills needed for success in school, and establish values that will allow him to act with thoughtfulness and humanity.

We engage with challenging academics and the unique resources of our city and region in order to become active citizens and responsible stewards of our world.
